Construction Equipment

Shuttering magnets (Rectangle shape)

Application

These magnet is basically designed for PRE CASTING of cement block, slab etc. for easy setup.

Characteristics

These devices consist of powerful Nd Fe B grade magnets it helps to reduce the self-weight and increases holding capacity. It is operated by simple turn of lever for energize & de-energize (ON-OFF), no external power is required

Before innovation of this device, the work has been done by using wooden strips, batten joining with nails as per the design and after casting it, the whole material has been altered for next design or it waste, so that it looses productivity and waste of time and money.
